<sup>\*</sup> The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program remains on schedule as originally anticipated and will be continually monitored to ensure completeness.

<sup>\*\*</sup>Retail Pharmacy: Includes doses allocated to the State of NH that were distributed to a Pharmacy in addition to doses allocated directly from the federal government to the federal retail pharmacy partnership program.
